

COVER - LETTER

Date 14-10-17

Sub: (For seeking position in the organisation)

Dear HR,

I was excited to see your opening for a training and full-time job offer, and I hope to be invited for an interview.

My background includes I am in my final year 8th semester, Graduating in Bachelor of Computer Science from lovely professional university. Passing-out in 2018.

Currently I am in training at Nagarro software, Gurgaon where I was being trained on Asp.net and JavaScript Angular framework.

Most recently, I worked on the Android-application called Antariksh, where my responsibilities included handling social media integration and making platform interactive and challenging.

Previously, I have worked within one more app called ATS (Ambulance Tracking System) where my responsibility is to format the search of locations and its Realtime path.

In addition to this experience, I have done my training from HPEs Delhi Noida centre in Android and java where I got more exposure to android development and proficiency in java(J2SE).

I am also a regular participant in programming competition in some of the websites like Hacker-Rank, Hacker-earth, code-chef which helped me enhance my problem- solving skill. Please see the accompanying resume for details of my experience and education.

I am confident that I can offer you the best developing, communicational and problem-solving skills you are seeking. Feel free to call me at 8699972164 (cell) to arrange an interview. Thank you for your time I am looking forward to learn more about this opportunity!

Sincerely,

Kripa shankar jha
