Respected ,HR.

Re: For seeking position in the organisation

Dear HR

I was excited to see your opening for a full-time job offer, and I hope to be invited for an interview.

My background includes I am in my final year 7th semester graduating in bachelor of computer science from lovely professional university. Most recently, I worked on the application called antariksh, where my responsibilities included handling social media integration and making interactive UI concerned with UX .

Previously, I worked within one more apps called ATS(Ambulance Tracking System) which includes how to make hospital more reliable for the patient by providing tracking in the traffic and early preparation reports for the emergency situation.

In addition to this experience, I have done my training from HPEs Delhi Noida centre in Android with java where I got more exposure to android development and Java J2SE platform.

I am also a regular participant in online competitive programming in some of the websites like hacker rank, hacker-earth , code chef which helped me to orient my idea for the data in proper data structure and solve the real-life problem in efficient complexity. Please see the accompanying resume for details of my experience and education.

I am confident that I can offer you the best developing, communicational and problem-solving skills you are seeking. Feel free to call me at 8699972164 (cell) to arrange an interview. Thank you for your time—I look forward to learning more about this opportunity!

Sincerely,

Kripa shankar jha
